

BROADBAND RADIO SERVICE (PART 27)

The Broadband Radio Service (BRS), formerly known as the Multipoint Distribution Service (MDS)/Multichannel Multipoint Distribution Service (MMDS), is a commercial service. In the past, it was generally used for the transmission of data and video programming to subscribers using high-powered systems. However, over the years, the uses have evolved to include digital two-way systems capable of providing high-speed, high-capacity broadband service. For information on electronic filing visit the Internet @ <http://wireless.fcc.gov/uls/>. *All applications, notifications, and requests (excluding requests for special temporary authority and waivers of the requirement to file electronically) **must be filed electronically via ULS**.* The instructions that follow are for filing applications.
